LOGNOTE -- Chief, Operations Group, 18 March 1983

2. [ ] DD/S&amp;T Staff and CSP Meeting:

25X1

- The Domestic Relocation Allowance is in trouble again. A memo was sent to the Hill saying that the allowance was needed, that the Agency had waited as long as it could, and that we now planned to move ahead under the DCI's special authorities. Congress has balked about the use of the DCI's authorities.
- Alien marriages. The December 27 notice took a tough stand on marriage to aliens and there have been lots of disapprovals since then. Two exceptions, which had been approved by security, were turned down by the DDCI. A new notice is coming out which says, in effect, no marriage to aliens, and no exceptions unless the employee is unique.
- Biographic profiles sent to EXDir, particularly on SIS movements, should be classified if they mention any classified activities or jobs.
- Next Tuesday the DCI and DDCI will meet with the DD's on the reserve release. Evan ran through the DD/S&T priorities; ROSET was not mentioned.
- [ ] were approved for the CIM. Hineman said offices should try to get nominations for retirement awards in early so the awards could be presented at the time of retirement, not months later. I said these employees had waived in making up their minds and had not jumped until the last minute.
- [ ] was not selected for the DCI MAG. [ ] of ORD was. [ ]
